

Guide to conference facilities and guest services

Zurich Development Center

Modern with roots

The Zurich Development Center is located in the city of Zurich, high on the hills overlooking Lake Zurich. The campus, covering 11,500 square meters, is a modern integrated conference facility housed in historic villas and traditional Swiss chalets.

It is a place to explore and exchange new ideas. A place to learn, socialize and relax.

Alongside the first-class conference center, there are 83 guest rooms, a restaurant and a fitness and wellness spa. Everything you need for a successful event – all in one place.

The 14 labs and the auditorium feature state-of-the-art equipment. Furnishings are flexible and can be arranged to suit your specific needs. Lab walls can be reconfigured, and floor ports for computers and multi-media equipment are readily available.

The auditorium which seats up to 200, features exceptional acoustics, an 18-screen display, multi-media equipment, and translation booths.
