Empowering Global Health & Wellbeing

Tailored solutions for a thriving workforce

“ In today’s rapidly evolving workplace, the concept of employee benefits has shifted from a one-size-fits-all model to a more personalized approach. The modern workforce is increasingly diverse, with employees spanning different generations, lifestyles, and personal needs.

This has created a demand for benefits that go beyond the traditional packages of health insurance and retirement plans. These benefits need to be customized to meet the unique needs of individuals – from flexible working and mental health support to individual wellness programs and financial planning services. Employees expect their employer to integrate health and well-being into every aspect of their benefits, addressing not only physical health interventions but also, prevention, return-to-work initiatives, including rehabilitation, and building overall resilience.

Customized offerings not only enhance employee health and well-being but also contribute to employee satisfaction, engagement, higher retention rates, and improved productivity. Companies that prioritize personalized benefits create a supportive environment where employees can thrive, both personally and professionally.

Our local Network Partners offer a broad spectrum of health and well-being programs tailored to the specific needs of your workforce. In a joint effort with you, Zurich and our Network Partners can support the thinking process and implementation of practical, targeted health and wellbeing initiatives that address key health cost drivers while benefiting employees.

The following pages provide an overview of the current solutions available through our Network.

Health & Wellbeing Proposition Lead at Zurich Global Employee Benefits Solutions (ZGEBS)

Health & Wellbeing Network Capabilities

Our Solutions

Physical Wellness

Physical Wellness emphasizes on prevention and awareness, helping employees maintain their physical health. By offering resources for early detection of health risks and promoting healthy habits, companies can empower their workforce to stay physically healthy.

Emotional Wellness

Emotional Wellness is focused on supporting employees' mental health through a range of resources. Stress management, mindfulness practices, and psychological counseling help employees navigate emotional challenges, while resilience training provides essential tools for maintaining long-term emotional balance.

Health Interventions & Behavioral Change Programs

These programs offer targeted solutions that empower individuals to adopt healthier habits and improve long-term wellbeing. Key focus areas include **nutrition, stress management, exercise, weight control, smoking cessation, and chronic risk reduction.**

More personalized support is offered with dedicated programs that address specific population needs:

Chronic Conditions Management Programs

Tailored support to individuals with long-term health conditions (e.g. diabetes, cardiovascular diseases) helping them better manage their health, enhance quality of life, and prevent health complications.

Women's Health

Focused on hormonal, physical, and emotional health, these programs support women through key life stages (e.g. reproductive health, menopause).

Men's Health

Promotes awareness and prevention around men's specific health needs, encouraging early action and healthier lifestyles.

Financial Wellness

These solutions offer comprehensive support to enhance financial health, including financial planning workshops, retirement planning assistance, savings programs, investment education, and debt management. Tailored to meet individual needs, they empower employees to achieve financial stability and long-term security.

Glossary

Cancer screenings

Encourage employees to take medical tests to detect potential cancer at an early stage, often before symptoms appear. Example mammogram for breast cancer, pap smear for cervical cancer, colonoscopy for colorectal cancer, and PSA tests for prostate cancer.

Psychological counselling

A confidential support service offered through Employee Assistance Programs (EAP) to help employees manage stress, anxiety, depression, workplace challenges, and personal issues.

Workplace health day

A preventive health initiative organized in the company premises focused on employee well-being, featuring health screenings, wellness activities, educational health sessions, and interactive workshops to encourage a healthy and engaged workforce.

Workplace health screening

A preventive health initiative organized in the company premises with the support of a medical provider to offer employees access to medical check-ups and personalized medical assessment.

Workplace vaccination

Provides employees with convenient access to vaccination to prevent infectious diseases like flu, hepatitis and covid-19.
