

Meet tomorrow prepared.

Digital Solutions that free human possibility

In our customers' worlds, risk never sleeps. Neither do we. Our digital solutions are available for you around the clock, streamlining and optimizing your processes along your risk management and insurance journey.

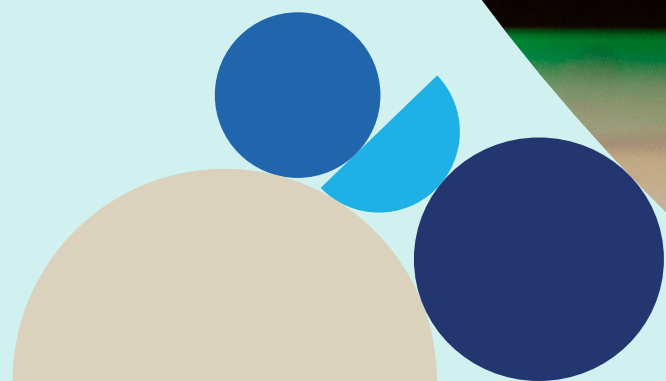

My Zurich provides a centralized, user-friendly self-service solution that ensures you make informed decisions quickly. With real-time access to critical data, My Zurich offers powerful tools to manage your insurance programs, track risk information, and stay compliant across multiple regions and jurisdictions.

With the **My Zurich API Connector**, you can share data and documents seamlessly and in real time. The API solution enables you to exchange documents and information instantly and receive data, quotes and more directly into your own system.

With our self-service digital solutions, you can stay in control. Whenever you need them and wherever you are.

Tools to optimize your insurance program at every step of the journey...

At renewal

Renewal requires the gathering of a huge amount of information, and the whole process has to happen quickly and efficiently. Our suite of tools on My Zurich accelerate the process – with full transparency at every step and focused support at your fingertips.

Simplify the entire process

The **Renewal Checklist** manages the workflow, with a centralized view of status and tasks, plus direct access to all mandatory documents.

API

Review all your options

The **Quotations Capability** gives you a clear view of the expected premium, coverages and exclusions, with all relevant documents available.

Explore your exposure in detail

Risk Insights lets you overlay natural catastrophe information across all your locations.

API

Stay on top of global coverage

My Insurance Solution visualizes your pre- and post-bind program structure and coverages in all markets, highlighting any issues and gaps.

API

Understand your exposure around the world

Property Locations lets you gather all your data and risk exposures in one place at any point of your insurance journey, with the ability to update, delete and add information in real time.

Having all the information available in one place makes gathering data for renewal much simpler, while also giving you in-depth insights into risks and cover whenever you need them.

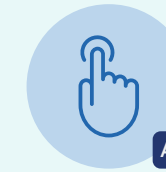

At implementation and for day-to-day servicing

We will deliver the program that matches your business requirements, with digital tools to keep you in control and stay connected. From assessing risks to making claims, My Zurich makes servicing your account easier and more efficient, giving you quicker access to information and insights whenever you need them.

Save time and optimize efficiency with eCertificates

The **eCertificates solution** saves you 100s of hours of work – generate hundreds of certificates in just minutes and enable colleagues to generate their own certificates, with no need to send and receive emails.

API

Make implementation simpler and have your policy-related data at your fingertips

Your **Program Status Tracker** makes it easy to track policy and invoice issuance, with all the key information in one place. View and download your policy-related documents from around the world.

Collaborate on your claims handling standards

Claims Handling Protocol identifies key claims contacts and supports digital collaboration between Zurich, broker and customer.

API

See all your claims in one place

Your **claims app** brings you full transparency around claims, showing status, progress and financial movements.

Stay on top of global coverage

My Insurance Solution highlights key focus areas country by country, so you can review your program live at any time.

Monitor and understand service performance

Your **Service Performance Dashboard** illustrates the implementation experience, showing how long service takes and highlighting any areas that need addressing.

Keep up to date with the latest regulation

Your **Zurich GPS Tool** gives you a constantly updated view of regulatory obligations for 180+ countries and jurisdictions.

Call on support during risk assessment and beyond

Zurich Risk Advisor gives you insights to help you mitigate risk, with full visibility of hazards across all your locations.

API

Review your risk assessments and update risk improvement actions

Your **Risk Engineering** tool supports you through risk assessment and beyond, making the review and update of risk improvement actions easier, and providing you with transparency across all your locations at any point in time.

For reinsurance and captives

If you are harnessing captive programs for more flexible and resilient cover, we can help you realize the benefits across life, non-life and consolidated with our digital tools on My Zurich.

Simplify the captive reinsurance process

With **Customer Captive Insights** you can access your captive-related information around policy and claims, available for you to track at every point on your journey.

Share documents easily

Bordereaux exchange puts all captive-related documents at your fingertips to access whenever you need them.

¹ API availability – Available as data on quarterly basis

Simple. Smart. Dependable.

Digital capabilities that deliver.

Transform risk and insurance management with digital capabilities at your fingertips. With fast access to your risk data and insights, you're in control and can maximize your time to free human possibility.
